SUMMARY UI/UX Designer with 5+ years of experience designing user-centered fintech, crypto, and enterprise platforms across web, mobile, and admin dashboards. Experienced in building scalable, responsive design systems for international clients and public-sector digital products. Currently a Master's candidate in Computer Science, combining strong design thinking, UX research, and technical understanding to deliver clear, efficient, and compliant user experiences.

WORK EXPERIENCE	<u>Senior UI/UX Designer – Swisstech (Remote)</u>	Feb 2025 - Present
	- Design end-to-end fintech experiences across web and mobile, including user flows, wireframes, prototypes, and high-fidelity UI. - Design and maintain responsive interfaces, light/dark themes, design systems, components, and reusable UI patterns. - Redesign and improve fintech products, websites, landing pages, and complex user journeys. - Collaborate with developers and product stakeholders to translate requirements into clear, feasible, and implementation-ready designs. - Review implemented designs, provide UI/UX feedback, and create branded visual content while maintaining design consistency.	
	<u>UI/UX Designer, COMAVE (Remote) Bertrange, Luxembourg</u>	May 2024 - Aug 2024
	- Designed intuitive UI for mobile apps and web CMS, including Booking and Retail sections. - Created wireframes, high-fidelity mockups, and interactive prototypes for stakeholders. - Conducted UX surveys and competitor analysis to guide user-focused improvements. - Collaborated in an agile team, ensuring clear communication and project alignment.	
	<u>UI/UX Designer – Aswan Digital Transformation Center</u>	Aug 2021 – April 2024
	- Designed user-centered interfaces for 6 Play Store apps and ERP systems for public utilities. - Led end-to-end UI/UX design process including mockups, prototypes, and usability testing. - Maintained design documentation and ensured consistency with brand guidelines. - Delivered AI and Machine Learning training sessions for staff and stakeholders.	
	<u>Freelancing UI/UX Projects</u>	2021 – Present
	- Independently completed multiple comprehensive UI projects as a freelancer - Designed user interfaces for medical care, booking, focusing on both user experience and user interface components - Developed wireframes, prototypes, and high-fidelity mockups - Collaborated with clients to understand their needs and deliver customized design solutions - Delivered projects on time and within budget, maintaining high client satisfaction	

Teaching Assistant, Arab Academy for Science and Technology - AAST

- Assisted in teaching the following courses:
- (CS322) Operating Systems
- (CSE4204) Software Engineering
- (CS333) Web Programming
- (CS464) Soft Computing
- (IS171) Information Systems
- (IS273) Database Systems

EDUCATION

Master in Computer Science

Sep 2021 - Present

- Arab Academy for Science and Technology and Maritime Transport
- 3.8/4 GPA (Excellent)

Bachelor of Computer Science

Sep 2017 - Oct 2021

- Arab Academy for Science and Technology and Maritime Transport
- 3.92/4 GPA (Excellent)
